Think of it this way... Rotate View is like turning your head sideways. It's your subjective viewpoint that's changing - not the page. Rotate page is like picking up the paper and actually turning it. Your viewpoint is not changing, the object you are looking at is.

### **How do I save the rotation of a pdf document to the file**

One would intuitively think that if you opened the pdf in Adobe Acrobat and then selected View -> Rotate View -> Counterclockwise and saved the document it would fix the problem. But when you next open that document, you will find that the rotate view was not saved and the PDF still opens in the unwanted portrait orientation.
