Online Statistics Education: An Interactive Multimedia

Provides plotting, probability distributions, summary statistics, one-, two-, and multiple-sample analysis, time-series analysis, regression analysis, curve-fitting, attribute estimates, ANOVAs, Statistical Process Control, smoothing, power/sample-size calculations, and other statistical analyses. Also provides access to over 50 applets in which you can enter data, compute statistics, create tables and graphs, and print out the results.

Interactive Statistical Calculation Pages

Students are taught to ask "why" thinking like a statistician to find the logical solution. With its strong emphasis on data analysis, the book seeks to make students better consumers of statistics and to give them the skills to understand and interpret statistical results using real data from newspapers and research journals.

Aliaga & Gunderson, Interactive Statistics, 3rd Edition

Punctuated Lectures – Ask student to perform five steps: listen, stop, reflect, write, give feedback. Students become self-monitoring listeners. 27. Word of the Day – Select an important term and highlight it throughout the class session, working it into as many concepts as possible. Challenge students to do the same in their interactive activities.
